

Hughes-Elizabeth Lakes Union School District
 A California Distinguished School
 Application for District of Choice Program
Application Period November 1, 2011--January 1, 2012

Ed Code 48300-48316 allows a Governing Board to declare the district to be a District of Choice and is willing to accept a specific number of interdistrict transfers into the district. HELUSD shall accept students who reside in other California districts but wish to attend the HELUSD for the 2012-2013 school year.

Students who apply for this program and are accepted DO NOT have to apply to their district of residence for a transfer. Once you are accepted you will need to fill out a school enrollment packet. All returning students must have a new application on file unless the School Board withdraws from participation in the District of Choice Program.

The District shall not provide transportation outside any school attendance area. You may use transportation within the district at designated bus stops as space is available.
